

The Wheeling Daily Register.

VOL. 8.

WHEELING, W. VA., WEDNESDAY MORNING, NOVEMBER 30, 1870.

NO. 282.

TELEGRAPHIC SUMMARY.

Gold closed in New York, yesterday, at 114.

The bark Board of Trade run ashore at Milwaukee, Wis., Monday night, and filled with water. No lives were lost.

Over 1,714,000 Irish emigrants have arrived in New York since 1846. The number of immigrants last week were 2563.

The steamer Post Boy was in a sinking condition at Napoleon, Arkansas, Monday. She was discharging her cargo and had her pumps at work.

The French bazaar at New York, which has been the most successful of all charitable undertakings, will close with grand concert and a lottery on Friday.

Charles Wolf, residing at 1201 Wood street, Philadelphia, yesterday, shot at his wife and child and then shot himself. Wolf is dead. The child is shot through the arm, but his wife is unhurt. Cause unknown.

A Canada dispatch says that the pro- peller Susquehanna, of the Western Transportation Company, ran upon a reef at North Bay, and filled with water. She was loaded with flour and grain from Milwaukee. No lives were lost.

A private dispatch from Jackson, Mississippi, says that the telegram from Washington stating that Yerger, who killed Colonel Crane, had been sentenced to imprisonment for life, is untrue. Yerger's trial does not take place till January.

John Solomon & Co., liquor dealers, at Cincinnati, were reported on Monday night as suspended. It was stated emphatically, yesterday, that, though they have asked for some extra accommodations, their paper has in no case gone to protest and their business is proceeding as usual.

An interesting case is before the United States Circuit Court, at Memphis, Tennessee. Last July John F. Thomas, a white man, was arrested for cohabiting with a negro woman whose alleged was his wife and fined by the recorder. He now brings suit against the city for twenty-five thousand dollars damages. The city attorney on Monday, filed a demurrer on the ground that the Court had no jurisdiction, as the question of marriage belongs solely to the State.

ALABAMA.

Continued Excitement at Montgomery—Smith and Bingham Still Claim to be Governor and Treasurer.

MONTGOMERY, Ala., November 28.—The political excitement continues here. Today additional troops are arriving, but for what purpose is unknown. The rooms of the ex-Governor and State Treasurer, in the Capitol building, are strongly guarded by United States soldiers, while a detachment of the same command are in and about the Legislature hall. A large number of negroes are congregated in the vicinity, armed with pistols, many of whom, it is said, were ordered here from the plantations by the Loyal League.

The Senate met at eleven o'clock in the forenoon, and was called to order by the new Lieutenant Governor (Moren) as the constitutional presiding officer.

Without transacting any business the Senate, which is composed of Republicans, save one, adjourned until tomorrow.

The House, which is largely Democratic, was called to order at twelve o'clock by Speaker Hubbard.

Hon. Mr. Lewis, from Jefferson county, submitted a resolution setting forth the constitutional proceedings applicable, and creating a joint committee from the Senate and House to inquire and report upon what and by whose order or authority Government soldiers were now stationed on duty at the session of the Legislature, and until such report be made and accepted, the Legislature body refrain from the transaction of any business.

The resolution was adopted by the House, with only two dissenting votes, the Republican members voting for it. The committee was appointed and the House adjourned until tomorrow. A large portion of the Republicans in the General Assembly and out of it, condemn the course of ex-Governor Smith and the Radical leaders. A large and respectable meeting was held this evening, in which many prominent Republicans participated.

Speeches were made by H. R. Myers, of Mobile; Hon. Mr. Graham, Hon. Mr. Dost, of the House; General Spencer, of the United States Senate; Judge A. J. Walker, Joshua Moren, late Attorney General, and others, all Republicans of distinction, condemning the course of the Radical leaders. The meeting adopted resolutions as citizens, untruly disapproving the action of Ex-Governor Smith and his advisers, and the placing of troops in the State Capitol. The meeting was large, conservative, yet positive and determined in character.

MONTGOMERY, ALA., November 29.—The meeting last night to express indignation at the course of W. H. Smith and Arthur Bingham in refusing to vacate the offices of Governor and Treasurer, was largely attended. All the speeches were made by Republicans. Resolutions were adopted expressing indignation at the course taken by them.

FOREIGN NEWS.

New North German Constitution.

Russia to Withdraw Her Demand.

THE BATTLE NEAR AMIENS.

The Prussians Occupy Evreux.

The Garibaldians Defeated.

The New Prussian Loan.

ENGLAND.

LONDON, November 29, noon.—No important news from France to-day thus far. No confirmation of the reported battle near Moulargis.

By the provisions of the new North German Constitution Prussia has only seventeen out of fifty-seven votes to be cast by the Confederation. From this fact it is generally inferred that the future policy of Germany will be peace.

A committee of English bankers held a meeting last night and resolved to offer to take the entire new German loan—one hundred million thalers.

A Berlin dispatch announces that the Russian military agent in Paris has been forbidden to leave the city, for fear he will betray its desperate condition. The feeling today in money circles is pacific. The Times says: Desiring peace, we stand on the maintenance of peace guarantees and repudiation altogether of the claim to supercede the obligations of the treaty of 1856, a violation of which we cannot acquiesce in. The Times also gives a conspicuous place to a number of contributions insisting on the neutrality of the Black Sea or a declaration of war.

LONDON, November 29.—It is officially stated in the telegraph that Russia has decided to withdraw her demand and submit her proposition to the decision of a conference.

Private French advices say that a great conflict between the opposing forces to the number of 300,000 men is likely to occur immediately in the southern department. The Prussians are within twelve miles of the French Provisional Government. Trochu denies the statement that he intends to banish 10,000 Parisians because of the scarcity of provisions.

LONDON, November 29.—The following dispatch has been received here from Evreux, dated yesterday: The Prussians now occupy this town, and are in the Valley of the Eure in great force. This evening they were driven toward the village of Villars by the Garde Mobile, who retreated in turn, when reinforcements came up for the enemy. 70,000 Prussians now occupy Evreux. There was some fighting yesterday in front of the army of the Loire, all along the country between Pithiviers and Montargis. Particulars are wanting, but it is said the French were generally successful, having captured many prisoners and 1 cannon.

LONDON, November 29.—The World's special from Tours to-day says that yesterday the right wing of the army of the Loire, having repulsed during the previous day several attempts of the enemy to turn their flank, advanced to the village of Montargis, and then commenced a movement towards Pithiviers in combination with the advance of the right centre of the army at Arthenay to the same point. While these movements were being made, detachments of the enemy were in every case driven towards Baume, midway between Montargis and Pithiviers. Here at 2 P. M. the enemy passed 47,000 men, consisting of 10th corps, 5th and 1st divisions of the French assailed the Prussian positions from the south, capturing two guns. At nightfall the Germans seemed to be retreating further north. The German losses on the 27th and 28th were very heavy.

PRUSSIA.

BERLIN, November 29.—King William has forwarded the following to Queen Augusta:

VERSAILLES, November 29.—Yesterday General Manteuffel, with a portion of the first army, defeated the French a few miles south of Amiens. The French lost 10,000 killed and wounded, and 700 prisoners. The Prussian loss was comparatively unimportant. The Duke of Mecklenburg-Schwerin is near Le Mans, where Kersay is a French force of 27,000 men.

BERLIN, November 29.—The Austrian Government has congratulated Prussia on the accomplishment of the union of Bavaria, Baden, Hesse and Wurttemberg with the North German Confederation.

BERLIN, November 29.—Of the new Prussian loan 50,000,000 thalers will be issued in dollar and pound bonds. The consortium has made bids for 51,000,000 of a loan, and pending the concession the remainder will be offered at 95.

FRANCE.

VERSAILLES, November 29.—The French yesterday attacked the German forces under Baume, between Montargis and Pithiviers, and were repulsed. Prince Frederick Charles was present and directed the operations. One thousand prisoners fell into our hands.

Official dispatches confirm the reports of the defeat of the Garibaldians at Pithiviers on Saturday last, and their disorderly flight. The Prussian losses do not exceed fifty killed.

The retreat of the army of the North from Amiens was in an orderly manner. A Prussian officer captured before Amiens says that the German plan is to attack Lille and Dunkirk.

AUSTRIA.

VIENNA, November 29.—It is reported here that the recent declaration from St. Petersburg demands that preparation be made by the European powers for their early action.

ITALY.

FLORENCE, November 29.—The Italian Ministry is severely censured for authorizing the seizure of the journals which published the Papal Encyclical.

NETHERLANDS.

THE HAGUE, November 29.—Mr. Steneren, ambassador in this city from Sweden and Norway, goes to Washington in the same capacity.

NEW YORK.

The Darien Expedition.

NEW YORK, November 29.—The United States ship Guard, Commander E. P. Lull, will leave on the Darien expedition about the 5th proximo. Commander Selfridge, who has command of the expedition, will take passage in the Guard and proceed at once to the mouth of Atlatro river, where the work is to be begun. After organizing the various parties which are to perform the hydrographic and shore duty, Commander Selfridge will take the Nipise, Lieut. Commander Byron Wilson, due at Atlatro about the middle of January and proceed to Aspinwall and Panama.

At the latter port she will find the steamer Saginaw, detained by the government for the purpose of carrying on surveys from the Pacific side, at the entrance of the Darien river. The principal work of the Selfridge expedition is to be prosecuted on the Pacific side. The party which is to take its passage in the Guard is rapidly assembling in New York. The Civilian Science Staff was to be very strong on the present Darien expedition. It will be composed of an astronomer, naturalist, photographer, and civil engineer. From the coast survey a portion of these gentlemen will go on the Pacific side later in the season.

The Erie Leaves with a Cargo of Ammunition for the French.

The American steamer Erie, having on board an immense cargo of ammunition for the French Provisional Government, sailed this morning for Cowes and a market from pier No. 4, North river. The Ville de Paris, of the French line, with a cargo of arms, will sail for Havre tomorrow.

Efforts for the Release of Callicott.

Efforts are being made to secure the release from the Albany penitentiary of ex-Speaker T. C. Callicott, whose term of imprisonment has expired, but who is unable to pay the \$10,000 fine imposed.

Dartmouth College Re-Union.

Attorney General Ackerman, Senator Morrell, and between eighty and one hundred other notables have signified their intention of attending the Dartmouth College re-union in this city on Thursday.

The Suspended Grocery Firm.

The large grocery firm reported as having suspended, is Bogley & Mead.

The suspension is the result of speculation. The liabilities are unknown, but are reported as large.

The Eighth Annual Meeting of the Working Women's Protective Union.

Was held yesterday. The report of the Treasurer set forth that during the year employment had been procured for about two thousand girls, and that legal proceedings had been instituted in two hundred and fifty cases where wages were wrongfully detained.

DETROIT.

The Northwestern Woman's Suffrage Association.

DETROIT, November 29.—The annual convention of the Northwestern Woman's Suffrage Association commenced its session at Young Men's Hall this morning at 10 o'clock, the attendance not being large, but embracing many of the most famous women engaged in the movement. Mrs. M. A. Hazlett, of Hillsdale, Mich., occupied the chair, being President of the association. Upon the platform were Susan B. Anthony, Mrs. Celia M. Burleigh, of Brooklyn, Miss Lillie Peckham, of Milwaukee, Judge Waite, of Chicago, and several other prominent persons. Delegates were present from Michigan, Ohio, Indiana, Illinois and Wisconsin and there is no doubt that other States will be represented before the final adjournment.

The first business of importance was the annual address of the President, delivered by Mrs. Hazlett.

Committees were appointed on Rules, Resolutions, Appointment of Officers and Revision of Constitution.

Miss Anthony being called for spoke a few minutes, urging chiefly that women engaged in the movement should hold the balance of power between the two great parties of the land, and not content themselves with joining either the Republican or Democratic organizations. She spoke of the experiment which has been tried in Wyoming of entrusting women with the ballot and characterized it as a success. So with regard to their acting as jurors and in the capacity of Judges and Judges.

CUBA.

HAVANA, November 29.—The American schooner Frank Palmer, from Matanzas, was lost at sea on Friday last. The crew were saved.

Colonel Barrios, General Cava's chief of staff, has been captured by the Cuban forces.

The Spanish gubato Alarma is ashore at Guanabacoa de Cuchinas. Her cannon was removed to lighten the vessel with the hope of getting her off. She will prove a total loss.

Colonel Cabura, the insurgent leader who had command of the party belonging to Jesus Del Sol, during a severe illness of that famous chief, surrendered himself and men yesterday.

WASHINGTON.

WASHINGTON, Nov. 29, 1870, The Funding Law.

A Senator occupying a leading position on the Finance committee, and one who voted for the original bill, said yesterday that he had grave doubts about the working of the Funding Law in its present shape, and that he should not be surprised if it was made the subject of early legislation by Congress. He does not think that four per cent. certificates can be taken in the present condition of the money market, nor does he think that there is any immediate prospect of improvement. He would be in favor of amending the law so as to make the rate of interest on all bonds at four and a half and five per cent. It is said the Secretary of the Treasury does not oppose a limited amendment.

Arrival of Federal Troops in South Carolina.

There is a general call for troops to quell disturbances in many parts of the South. A Democratic letter writer reports the arrival at Columbia, South Carolina, of six companies of infantry, whose destination is supposed to be Union, Spartanburg and Laurens counties, that State, and adds: Our people do not dread or dislike the presence of United States soldiers but will even welcome them and assist in capturing roaming marauders calling themselves militia.

Justice Nelson, of the Supreme Court.

Who has been for several months in feeble health, writes that he will be here on Saturday next, his health having greatly improved. As he is senior judge on the bench, he will have charge of the court until relieved by Chief Justice Chase in February. The Marshal of the court, Colonel Parsons, who has been several months in Europe, will probably arrive here this week.

Bill allowing Import Duties to be paid in Currency.

It is learned that early in the session of Congress a prominent Western Senator will introduce a bill allowing import duties, and all taxes arising from customs, to be paid in United States currency, instead of gold as is at present required.

The San Domingo Treaty.

It is positively asserted that the San Domingo treaty will be somewhat modified and sent into the Senate again this winter.

But few Senators and Representatives.

Considering that less than a week will elapse before the assembling of Congress, there are fewer Senators and Representatives in the city than usual at this time.

The Alleged Defalcation in the Buffalo Custom House.

Congressman elect, Session, of Chautauque District, New York; United States Marshal Bass, and Collector Daniels, of Buffalo, who is charged with a discrepancy in his accounts to the tune of \$300,000, arrived in town yesterday, and called on the President and Secretary Boutwell, to both of whom the latter denied that there was any defalcation in his office, but that the whole thing was a scheme of Buffalo politicians in the interest of Congressman Bennett, of that District. The Treasury Department is investigating it.

The Consolidation of the Internal Revenue Districts.

The measure for the consolidation of the Internal Revenue districts, now going on, will relieve the country of the service of about 160 assessors and collectors, besides many minor officers.

Since October 1, the number of assistant assessors dispensed with were 419, and by the 1st of January will reach 600. The expense of collecting revenue, which has reached nearly \$8,000,000 per annum, will, by this means, probably be reduced to \$6,000,000 per annum.

The Alabama Claims and the new English Minister.

The subject of the Alabama claims and who will be Motley's successor as American Minister to England, is regarded as the principal points of interest in connection with the foreign policy which the administration will recommend to Congress at the commencement of the approaching session. After the Senate reassembles the President will nominate a new Minister to England, and he will be a man who will faithfully represent the sentiments of the people of this country, that ample reparation will be required for the injury inflicted on our commerce during the rebellion.

Report of the Postmaster General.

The forthcoming report of the Post Office Department will contain an earnest appeal, sustained by a formidable array of facts and figures, to Congress, for a repeal of the law for the abolition of the franking privilege. With its abolition, the Department is of the opinion that the postal service can be made self-supporting. For the last fiscal year the expenditures have exceeded the receipts by over seven millions of dollars. Some time since the Post Office Department made a proposition to the British Post Department for a postal money-order system between the two countries similar to that between this country and Switzerland, which has been found to work admirably, and which was subsequently adopted between Switzerland and Great Britain and Great Britain and Bremen. The English Department has signified its hearty concurrence in the plan, and a few days ago the draft of a convention and detailed regulations were sent out for its approval.

Transplanting Rhubarb.

Rhubarb roots require re-planting occasionally. If the stools remain undisturbed for several years they often commence to decay in the centre, and after a while the whole plant becomes diseased. Every four or five years the stalks should be lifted and divided, leaving but one large crown, with its accompanying roots attached. These may be again planted in the same soil, or upon some fresh plot, the latter being preferable, although we are not a very strong disciple of the theory that plants run out if grown for many years in the same soil.

THE BEST BITUMINOUS COAL COOKING STOVE.

YET PRODUCED. THE MOST DURABLE, CLEANLY, ECONOMICAL AND CONVENIENT.

Rhubarb is very much like asparagus as regards fertilizing materials: the more the better, and extra application afterwards will always be beneficial. A very deep and rich soil are among the indispensable adjuncts of successful rhubarb culture. Transplant in fall, if possible, and plant in rows or hills, allowing plenty of room: no crowding will answer if large and thrifty stalks are desired. The crowns of the plants should be two to four inches under the surface, and a coat of mulch to the new plantations will prevent injury from cold, and assist growth very materially the following spring.

Style in "St. Joe."

Judge Van Trump, during his recent visit to the West, happened to tarry at St. Joseph, Missouri. During the evening there were bon fires, speeches, &c., in honor of the Democratic triumph in that State. The Judge very modestly took his place as a listener in a distant portion of the balcony of his hotel, and was enjoying the outburst of Democratic enthusiasm in the happiest manner, when he was suddenly warned upon by the committee, as follows: "Judge Van Trump, we are authorized to request you to make a speech, and if you decline, to pitch you over the balcony!" Like a wise Judge he accepted the most agreeable alternative, and "made a speech."—Plain Dealer.
